

Please DO NOT allow LPFM stations to take priority over current FM translator service. If the K-LOVE radio signal is replaced in my area, I, and many others, would be without our option to not have to listen to secular radio. With the stress of every day life & work, K-LOVE provides an outlet to many people, keeping them calm and focused on living their lives peacefully. In the world we live in, this service is one that is necessary. Please consider our freedom of choice to hear good, clean, family-oriented music in our cars and in our homes. Thank you.
